

## Ohio Academic Content Standards

Kindergarten- VISUAL ART STANDARDS

1PE, 5PE, 1PR, 6PR, 1RE, 2RE, 7RE

### Things you will need:

- Markers
- Coffee Filters
- Water
- Scissors

### What to Do:

- Fold Coffee Filter in half and cut on the fold.
- Use your markers to start to color your rainbow.
- Spray a little water on to the colored coffee filter and watch the colors start to blend together.
- Set to dry

If you have the supplies try adding cotton balls for clouds or glitter to make your rainbow shine!

### Extension:

If you liked this craft try cutting your coffee filter into new shapes, or draw a pattern with your marker.

Another project you can do is to color the coffee filter with one color in a circle and put it into the glass of water and watch the color spread.
