

# Watermelon Paper Craft

## Ohio Academic Content Standards

Physical well being and development: Small Motor- Pre-K (SS1, SS2) Fine Arts Visual Art Kindergarten K.1CR, K.2CR, K.3CR, K.1PR, K.2P

### Things you will need:

- Construction paper: green, pink, black
- Glue

### What to Do:

1. Take your green, pink, and black paper and tear it into pieces. It is up to you how big or small you want the pieces to be.
2. Glue the torn paper down. Start with your green and make a half circle shape. This is the edge of your watermelon. Once that is complete, fill in with your pink and black for the watermelon and seeds.
