Things you will need:

- 1 piece of paper
- Scissors

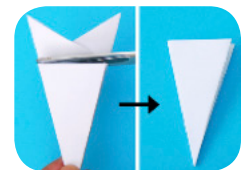

What to Do:

Step 1: Fold down one corner of your rectangular paper to meet the opposite edge forming a triangle, and then cutting the excess paper below the triangle in order to make your paper into a square.

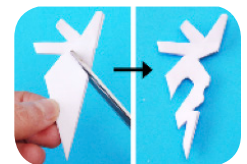

Step 2: Fold the square diagonally in half to come up with a triangle. Then, fold the resulting triangle in half to make a smaller triangle.

Step 3: Fold the left side of the triangle halfway over, and then do the same for the right side.

Step 4: Flip your paper over so that the side with the horizontal edge is facing front.

Step 5: Cut along the horizontal edge so that you end up with a wedge.

Step 6: While keeping the wedge folded, cut out random shapes out of the edges. Once you're done cutting, carefully unfold the paper to reveal your snowflake.
