

Don't want the fun of a Children's Museum field trip to end? It doesn't have to! Add on an on-site activity to extend your visit, or a take home activity for your students to continue the experience in the classroom or at home!

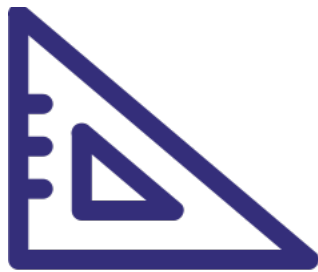

Add On On-Site Activity: \$100

Extend your visit with a 40-minute lesson and activity during your visit, lead by a CMC educator. This fee includes activities for 15 students. Additional students may be added for a fee of \$5 per student.

Add On Take Home Activity: \$75

Take-home packaged activities that correspond with what students learn during their visit to the Museum! This fee includes activities for 15 students. Additional students may be added for a fee of \$5 per student.

Choose from the following activity themes:

Young Architects

Learn about the role of an architect by creating your own blueprint, and stacking cups to test gravity at various heights. Explore geometry, discovering which shapes may be the best for a building. Then, use what you've learned to make your own building model!

Colors, Prisms & Rainbows

Can you find the end of the rainbow? Use prisms to separate light into the colors of the rainbow, explore the color wheel using pipettes, and discover how colors can mix together. Culminate what you've learned by making your own UV bracelets.

These activities meet the following State of Ohio Learning Standards:

Social Studies: A Child's Place In Time
K.GS.9 K. ES.12 1.GS.8-10

Math: K.G.5 K.G.6 K.G.2 1.G.1

These activities meet the following State of Ohio Learning Standards:

Science
K-2: Nature of Science: Scientific Inquiry, Practice and Applications
